2026-27 Guidelines for NCAA Signing Days

To celebrate our student-athletes who will be continuing their athletic careers in college, Watchung Hills has established guidelines for signing days. We have aligned our dates with the official NCAA signing periods. We also have a spring signing day for Division III student-athletes.

The athletics office will share signing day photographs and information with the local media. Student-athletes planning to continue their athletic careers in college should let the athletics office know as soon as the student has been admitted and committed to the academic institution.

For 2026-27 school year, the following dates are in effect:

Fall Signing Day: November 11, 2026
All student-athletes who have a commitment to a Division I or Division II institution will be invited to participate. This signing day will be for all sports except football.

Winter Signing Day: February 3, 2027
All football student-athletes who have a commitment to a Division I or Division II institution will be invited to participate, in addition to all student-athletes who have committed to Division I or Division II institutions that were not recognized in November.

Spring Signing Day: May 5, 2027
All student-athletes who will be continuing their athletic careers at a Division III school will be recognized during this session. Division I or Division II student-athletes who committed after the fall and winter signing dates are invited to participate.
